Quick Questions...

Do you Sign in to download?

Not for automated systems

fully automated - no

Do you link your NaPTAN to other data sets?

Yes

yes!

If so, Why? What feature do you like most?

If so, Which ones? Are they also from DfT?

Links to NCSD (Coach data)

Link to TNDS (other modes of data)

Link to ATOC data (Train)

OpenStreetMap

TransxChange - we take NaPTAN as a baseline and supplement with TXC stop points

Link to Ordnance Survey Road Data

Add into ATCO CIF

TNDS TXC

Operator specific TXC

BODS - in future

TfL Stops

NPTG - Your thoughts and Experiences

I use it

We update it in WYCA. Not developpers though

Use it if I need to add in a new large housing development

Only use it occasionally to update my database

yes we use it, gives us what we need

Still important for some journey planning functions

Don't use it

do not use it

The main work on Localities was done years ago

Information in NaPTAN is not all the same...

Priority vs Timeliness (aka what can I wait for?)

Strategy for NaPTAN and NPTG
Longer term strategy
CSV - What bits do you actually use? - Do we need a Special Interest Group for it
Recruiting for testers - are you interested

Names SIG of producers and consumers

Finally - Who to contact

Dr J - For anything to do with these meetings
Adrian - For the rebuilt NaPTAN project/Service
Arsalan - For the current system
