

Issues Log

March 2026

Open Issues

Issue_103 - Personalised Fare Zones in NeTEx

Originating from a Welsh requirement. The concepts have been discussed and identified that it is possible to code these using NeTEx v2 without a requirement for any changes.

This issue will therefore be closed.

Issue_104 - Supporting Block Number

An initial call with interested parties has occurred and the feedback and issues identified will be used to update the guidance supporting the TXC-PTI profile used by BODS at an appropriate time.

Issue_105 - Distance based Fares in BODS Fares NeTEx Profile

This remains open and will be addressed when the BODS Fare profile is reviewed.

Issue_106 – Updating Transport Authority

The list of LTAs has been agreed and an updated version of TransXChange XSD and documentation will be made available during March 2026.

This will result in the release of TransXChange v2.4.1 and v2.5.2
